This sport event has a social purpose: to generate minutes in the fight against neurodegenerative diseases.

How can my team generate minutes of fight?

Very simple! To generate minutes of fight the team will have to sell tickets for WOP Estropatada (Bilbao's biopatos race); an event organised by WOP and that coincides in place and date with the arrival of the teams at the finish line of WOP Challenge. Or make a monetary contributions.

 **1 ESTROPATADA TICKET = €5 = 10 MINUTES OF FIGHTING TIME**

Selling tickets has 2 impacts:

1. The money from the ticket sales goes directly to science.
2. Dissemination and awareness of neurodegenerative diseases to people who buy tickets.

Ways of selling tickets:

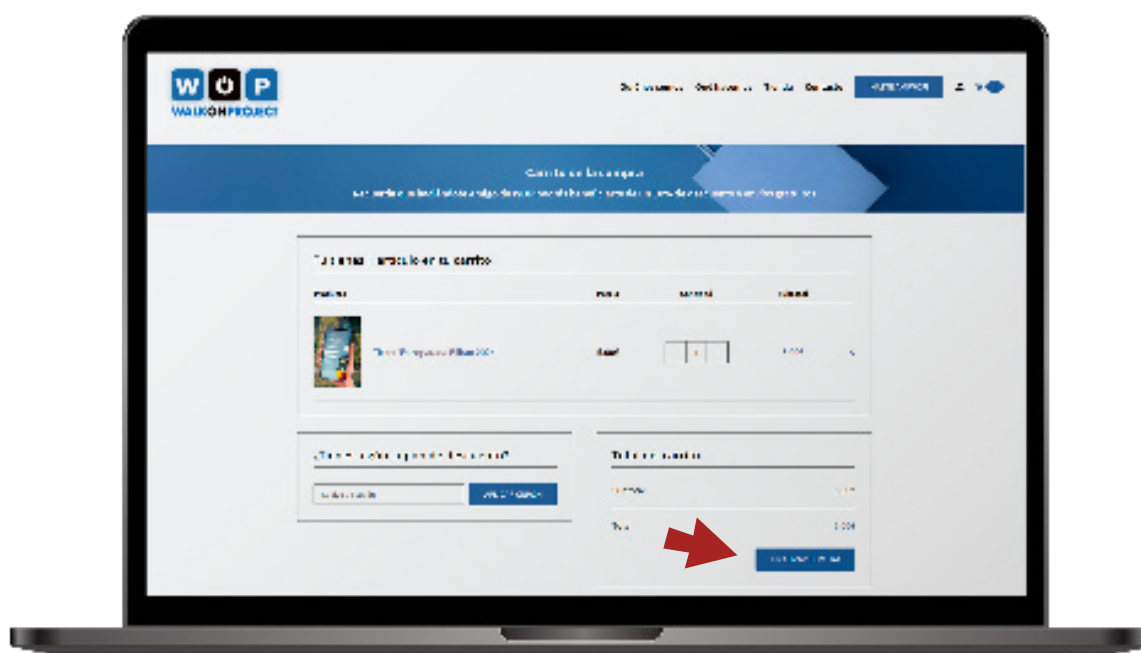

- a. Physical tickets. The organisation will provide the registered teams with tickets* to sell.

Once the organisation receives the payment for the tickets, the fight minutes generated will be updated on the website, in the 'Teams 2024' section.

** Unsold physical tickets can be returned on the day of the bib collection.*

- b. Online tickets. Teams can sell tickets online. To do so, the persons buying tickets on behalf of a team, must assign it in the last step of the purchase process.
